RESOLUTION OF RESPECT

An Appreciation From the Second Presbyterian Sunday School.

A great sorrow swept over the entire community when it was announced recently that Miss Jessie Callahan, our collaborator in the Sunday School, had succumbed to the dread disease—influenza—after a short illness and had gone to her eternal reward. She was a notable example of christian womanhood and endowed with fine gifts of heart and mind became a power for good in the home and community. Her quiet personality, as she drew around her a host of friends and by the inspiration of feminine virtues swayed the scepter of power. Whereas, God in his providence, has seen fit to remove her from our midst, we would bow in humble submission to His will, who doeth all things well, and as a Sunday School we desire to record our deep sense of loss and full appreciation of her personal worth and fidelity as a teacher. She was ever ready to co-operate with the superintendent and teachers in every thing that would promote the interest of the scholars. We grieve that no more her face shall be seen in our gatherings, but animated by a glorious hope of a reunion again, press on in our great work. The Sabbath School desires to convey sincere sympathy to the bereaved family and the assurances of our prayers for them. Her memory is precious:

"Only good night beloved not farewell;
Until we meet again before his throne
Until we know, even as we are known,
Good night."

Respectfully submitted,
Rev. John Lee Allison, Pastor.
Harry W. Rudd, Secretary.

RALLY IN THE COUNTY

R. Walton Moore and Frank L. Ball Speak in Interest of United War Drive.

Attorney R. Walton Moore, of Fairfax, was the principal speaker at a rally held last night in the Mount Vernon avenue school house, Del Ray, Alexandria county, in the interest of the United War Drive. The meeting was presided over by Frank L. Ball, commonwealth's attorney of Alexandria county, who also made an address. The meeting was well attended. Alexandria county has already raised a large portion of its allotment in the drive.

GERMAN WOMEN ASK MORE SATISFACTORY TERMS

The women of Germany have made use of the Nauen wireless in communication with the women in America, through Mrs. Wilson, for more satisfactory terms from the allies. Wireless messages were "picked up" by the new Military Intelligence station at Haulton, Maine, yesterday showing that Nauen station, which the German military party had been using for years for its propaganda, and which was much employed for the peace parleys has now been taken in hand by the new Republican government. The first messages were addressed to Mrs. Wilson and Miss Jane Adams. They indicate that the stories of German famine during the war were true, in spite of frequent denials.

ROOSEVELT IS SPEAKER

The Assistant Secretary of Navy Addresses 1700 Employees of Virginia Shipbuilding Corporation in Interest of United War Campaign.

Franklin D. Roosevelt, assistant secretary of the Navy, at 12:30 o'clock this afternoon addressed the 1,700 employees of the plant of the Virginia Shipbuilding Corporation at a mass meeting held at that company's yards, in the interest of the United War Drive being made by the seven great agencies.

Mr. Roosevelt was introduced by S. H. Glidden, of the Welfare Department of the Virginia Shipbuilding Corporation.

Regarding the work of the seven great agencies Mr. Roosevelt said: "The government is running the essentially military end. No government can give that little personal touch and morale that is necessary to the success of any army as can these agencies. That is why men all over the United States are being asked to give. It isn't charity. They don't need charity. We are going through days which are going to be vital, which will bring us back to a better standard and it effects every soldier and sailor. This money you give will come back in better conditions and greater happiness for us all. I know the nation is going to respond to make this country a better place to live in."

The speaker in his opening remarks told of his trip to the battle front, and he added that our people have established a reputation that is going to live forever in European countries.

Mr. Roosevelt told of his visit to the King of England and of the high praise given the American soldiers. Australian soldiers he said claimed the Americans were pretty good, "but awfully rough."

"We are going back to peace conditions but it is going to take a long time, the process has got to be gradual," said he.

Mr. Roosevelt said the process of mobilization is going to be hard and the personal needs of the army and navy is going to be as great for the next six months as previous to the cessation of hostilities.

Continuing he said: "We have got to realize that every man on the other side has got a homesick feeling. He longs for news of home and he wants to be reminded of home. The seven great agencies have undertaken to supply something that reminds him of home."

The taking of Bellows Woods by the Americans he declared marked the turning point of the war.

Experiences of representatives of the agencies during this critical fight were told by Mr. Roosevelt, who said that most of the welfare work is to take care of the men when they are not fighting.

The delight of the fighting men in France he said was the Salvation Army but a few yards behind the lines with the lassies furnishing hot coffee and doughnuts.

Mr. Roosevelt was given a big ovation at the conclusion of his speech. After taking his seat he again got up and said: "I understand that it was planned to have the war continue until next summer but Representative Charles C. Carlin arrived 'over there' at the psychological moment and the war came to a stop."

Previous to the speaking several camp selections were given by a Y. M. C. A. quartet from Washington composed of Dr. W. L. Darby, second base; T. Watkins, first base; J. W. Reynolds, second tenor; D. H. Scott, first tenor; with B. M. Johnson as accompanist on the piano.

An orchestra also discoursed music at the conclusion of the speaking. A number of visitors were later entertained at luncheon at the company's plant.

During the progress of the mass meeting pledge cards were distributed among the employees and a majority of the men signed them agreeing to give to and their contributions will add several thousand dollars to the fund.

RENAMED STREETS

The municipal council of Nevers, an important center in the American lines of communication in France, has renamed streets of the town in honor of President Wilson, Premier Clemenceau and Gen. LaFayette.

LUCKY END OF WAR

In all probability had the war continued three days longer a complete collapse would have taken place and the German armies would have been broken in two and those in Belgium would have been driven over the Dutch frontier, writes the military correspondent of the British Wireless Service. Marshal Foch had prepared a further great attack east of the Meuse which would have dealt the enemy the decisive blow.

ALEXANDRIANS.

Alexandria has responded nobly to all calls for War Work, and has met its quota of every demand. Peace is now in sight, but our boys, your boys, are still in the service over there, or in cantonments, and our duty is to provide them with comforts and to protect them against evil influences through the seven organizations represented in the United War Work Campaign.

Every one should do their duty for the boys that have risked their all for us.

NO SACRIFICES WE CAN MAKE ARE COMPARABLE TO THEIRS.

We must raise now our \$30,000. If we fail we cannot hereafter escape a sense of shame, when we meet again our boys face to face.

EIGHTEEN YEAR OLD REGISTRANTS

Questionnaires to be Mailed Shortly to These Young Men.

A telegram has been received by the local draft board directing that questionnaires be mailed all registrants who were eighteen years old in September 12, 1918, in order that their classification may be promptly concluded. Seven days are allowed in order to fill in and return the questionnaires.

It is believed that when these questionnaires have been prepared, the men will be classified and the records kept for reference in case of emergency in the future.

The order received by the board follows:

"Unless in pursuance of the authority granted by my telegram, number D-413 dated October 16th questionnaires have been mailed to all registrants who were eighteen years of age at the time of registration. Local boards should forthwith mail questionnaires to all registrants of the class of September 1918, who were eighteen years of age at the time of registration in order that the classification of registrants of this age may be promptly concluded."

SUSPECT KAISER

Amsterdam, Nov. 15.—The belief was expressed here today that the former Kaiser, who is not really abdicated but is merely seeking refuge in Holland, until a counter-revolution is started.

"In support of this belief," it is pointed out, "the abdication never was proclaimed, and that Wilhelm has never officially taken leave of the German people."

SECURES BIG CONTRACT

U. S. Steamship Co., of Which Va. Shipbuilding Corp., is a Subsidiary to Build 88 Ships to Cost \$139,400,000. Many to be Built Here.

The United States Steamship Company, of which the Virginia Shipbuilding Corporation is a subsidiary, has just received a contract for building thirty-two ships for the government and eighty-eight ships for private corporations. The contract for the total number of ships which it has just received amounts to \$139,400,000.

This proves the status of this company and especially the local company to the effect that the Virginia Shipbuilding Corporation is not merely a "War Baby" as has been believed by some persons.

This means that many of the big ships, which it will take many years to complete, will be built in Alexandria and the force at the plant of the Virginia Shipbuilding Corporation soon will be greatly increased in order to speed up the work.

This concern started out with a contract to build twelve big ships for the government and the first rivet in a keel laid at the plant was driven May 30 last by President Wilson in the presence of a large and distinguished assemblage.

News that this concern had received such a big contract was received in Alexandria with gratification, for it means that the work at the big plant of the Virginia Shipbuilding Corporation will go on with out interruption in peace times, and in fact the Virginia Shipbuilding Corporation will in peace times need more men than it did during the progress of the war. There will be work enough at this plant for several years to come in the building of ships.

Alexandria may well feel proud of her new enterprise which is one of the biggest shipyards in this section and whose payroll is one of the biggest. Most of the employees of this concern are residents of Alexandria and their wages are spent in Alexandria with our merchants.

CROWN PRINCE INTERNED

Official in Washington Says he is Still Alive.

The former crown prince has arrived safely in Holland and has been interned by the Dutch government. It was officially announced yesterday afternoon by the State Department the same cable brought news to the effect that the former Emperor of Germany was momentarily expected to join her husband, who has been reported to have designated himself "Count Hohenzollern."

The announcement disposes of the many reports received from different neutral sources during the past few days, which variously pictured the one-time heir to the German throne as assassinated by his soldiers at the front and also with his father in exile.

The prompt action of the Dutch government in interning the crown prince may be indicative of its final action with regard to the former Kaiser, it is suggested. The latter according to late dispatches, is virtually a prisoner, as Dutch gendarmes constantly patrol the estate at which he is a guest.

FLEE WITH FUNDS

Enver Pasha, Talaat Pasha, and Djemal Pasha have made their escape from Constantinople with considerable public funds, a Zurich dispatch to the French high commissioner reports.

CROWN PRINCE INTERNED

The German crown prince has arrived in Holland and has been interned, the State Department has learned officially.

MOB RULE IN BRUSSELS

Demoralization of German Army Increasing as Anarchy Comes. German Soldiers Are Burning and Pillaging—Situation Very Critical.

Amsterdam, Nov. 15.—German troops are in full revolt at Antwerp and Brussels. A hundred officers have been killed in mutinies. Soviets have been established at both places. At the British Front, Nov. 15.—The demoralization of the German army is increasing hourly. Brussels, apparently has been given over to mob rule. Officers are being shot by the score.

Civilians arriving at Ghent today picture scenes of the wildest disorder within and behind the German lines. The German soldiers are burning and pillaging and the situation is bordering on anarchy.

Sixty Belgians were killed Saturday night. Scores were injured. The situation in Brussels so moved the Spanish minister and the Dutch consul, as well as a prominent lawyer of Brussels, that they hurried to Truges and appealed to King Albert to take steps to safeguard the Belgian capital against the German menace, which is fast spreading.

TWO MORE ABDICATE

Copenhagen, Nov. 15.—Prince Joachim Ernst, of Anhalt, and Prince Leopold, of Lippe-Detmold have abdicated, it was announced from Berlin today.

NO "WAR BABY"

During the present year there have been several enthusiastic gatherings at the plant of the Virginia Shipbuilding Corporation in Alexandria, but the assemblage today while probably not so large as on some other occasions, was prompted by matters of far greater interest, more probably than any event in our history.

As is stated elsewhere in the Gazette, the Virginia Shipbuilding Corporation is a subsidiary of the United States Shipbuilding Corporation, which has just received the contract for the construction of eighty-eight ships, a large number of which will be built at the Alexandria plant. It will require years in which to furnish the quota required of the corporation now in operation in this city.

This means that the Virginia Shipbuilding Corporation is in Alexandria to stay, although some have thoughtlessly assumed that the end of the war would send a frost upon our shipbuilding enterprise. It has always been known that many years will have elapsed before the shipbuilding destroyed during the past four years can be restored to the normal, and that after having expended such colossal sums in constructing a first-class plant at Alexandria it would not be allowed to fall into decay.

The assembling today of government officials and others at the plant has sent the spirit of enthusiasm into every soul in our old city to which unlooked-for prosperity has dawned.

While such cheering conditions are in evidence at the shipbuilding plant workmen are busily engaged in preparing the site for the proposed torpedo plant which is to occupy an entire square on our river front. This manufactory will, it is said, require the services of at least two thousand workmen, and the building will, it is announced, be in operation before this time next year.

During a debate in the House of Representatives over seventy years ago on the proposition to restore Alexandria to Virginia a member said Alexandria was destined to die by the tooth of time. The would-be prophet has long since been gathered to the fathers, while Alexandria is renewing her youth, and from present indications will eventually become one of the most important cities of the Old Dominion.

SHALL HUNS GO UNPUNISHED?

Richard H. Edmonds, editor of the Manufacturers' Record, thinks Germany should be made to undergo rightful punishment for the distress which it has brought upon the world. The writer believes in drastic measures towards the defeated country. He calls attention to the fact that after four years of the greatest criminal record in human history Germany begs, like the cowering coward or the defeated bully, for an "honorable peace," and there are intimations in America that some people desire to give Germany peace without humiliation, and without punishment or indemnities adequate to mete out justice to such a nation.

It is well to bear definitely in mind, and never to forget it, that this is unlike any other war of which we have any record. It is, indeed, not a war in the ordinary sense. It is a struggle of murder and looting, undertaken by a nation after years of preparation. Through its entire

Wonderful! Wonderful! WHY?

Is it Any Wonder Cash Shoppers Are Taking Advantage of Our Prices and Big Selections Same as the Easy Credit Purchases? No!

What's the reason? It is plain to anybody who has been here. The average cash store doesn't keep up its assortment like we do. It hasn't the outlet. An endless army of credit buyers such as we possess creates "volume" forces prices down—an army that must be kept satisfied while wearing and paying for the merchandise, also guarantee quality to both the cash and the credit purchaser alike. But what's winning the cash business is style and our selections. The average cash store doesn't show as many styles. It doesn't sell at our prices either. You save money even if you pay cash.

educational system, through its military life as well as in its private life. Germany had for years been planning to bring on a war for the definite purpose of looting the world, absolutely without regard to the millions who might be murdered in the campaign.

Through its military teachings it was for years proclaiming that frightfulness must be a part of war in order to deter other nations from daring to risk its vengeance. In this murdering, marauding expedition Germany has wrought such havoc as the world had never known. Millions have died, millions have been maimed, blinded, torn and shattered in body and in mind, and hundreds of millions have suffered in agony as for four years they have seen their loved ones fighting against the forces of hell let loose on earth by Germany.

And shall we call such a struggle a war? It is, indeed, not war as we have known wars. Our allies and our soldiers are engaged in an effort to prevent a nation of murderers and outragers and unscrupulous scoundrels, backed by the entire sentiment of their countries, from overrunning the world, destroying civilization and placing all mankind under the domination and the damnation of German Kultur for the personal and national enrichment of the German people.

If we do not punish these criminals, then we should open wide the doors of every penitentiary and jail on earth and announce that no murderer, no outrager and other criminal shall ever again be punished. The future of civilization demands that we shall punish criminals. Germany; that we shall compel its armies and navies to surrender unconditionally, and that there shall then be meted out to the criminal leaders the same punishment on the gallows which is given to individual criminals.

Unless this be done, we shall be false to all civilization and show a moral flabbiness which would through the centuries to come destroy the moral fiber of the world.

We should also require of Germany a full indemnity for every dollar ex-

PEACE CONGRESS

Tribunal Likely to Meet Before December 15

Paris, Nov. 15.—It is probable that the first meeting of the Peace Congress will be on a date before December 15, after the English Parliamentary election, and at a time which will give ample opportunity for the American and other delegates to arrive. A meeting to be held shortly of the Inter Allied Conference finally will determine the details of these questions.

Premier David Lloyd George and Foreign Minister Balfour, of Great Britain; Premier Orlando and Foreign Minister Sonnino, of Italy; Premier Venizelos, of Greece, and Foreign Minister Puchich, of Serbia, are on their way here for a resumption of the conferences at the home of Col. Edward M. House, Special Representative of the United States Government and the sessions at Versailles.

Besides outlining the general program of the congress, the question of meeting the food situation in Germany and Austria probably will be considered.

Wanted.—To let the people of Alexandria city and suburbs know that I do hauling of all descriptions by large motor trucks. Nothing too small or large. Special attention given to moving household goods and out of town trips. No distance too long or too short. H. C. Aaron, 108 South Alfred street. Phone 947.

IF YOU COULD MOVE YOUR HOME TO THE BATTLE FRONT

What would you fathers and mothers do if it were possible to actually move your comfortable homes just back of the battle lines this morning and meet your boy as he comes staggering out of the trench fight-weary, plastered with mud, hungry, wet and chilled to the bone after spending a long, hard frightful night of the most terrible hell of war?

You'd throw your tender, loving arms about his neck and weep tears of joy and thankfulness that he had been spared. You'd take him inside, give him a bath, some nourishing food, a smoke, if he wished it, a warm bed, sleep, clean clothes and other comforts.

During his few days of rest, if he wanted more smokes, games, athletics, good books, stationery, entertainments—all would be his for the asking. You'd top all this off with words of cheer, encouragement, love and kindness, such as would revive his war-worn spirits and put him in shape to go "at 'em again" brimming over with that ginger and pep which is making our American lads famous.

That is exactly what more than seven thousand United War Workers—Jewish Welfare Board, War Camp Community Service, Salvation Army, Y. W. C. A., K. of C., Y. M. C. A. and American Library Association—Are Doing Now in the Huts in France and Around the Camps and War Industries Over Here for All Our Women and Boys in Service.

It doesn't matter a snap of the finger to our American warriors whether these God-sends come from the hand of Jew, Catholic, Y. M. C. A. or Salvation Army. Nor does it make any difference to these war workers what the boy's creed, race or color may be—they are strictly on the job, night and day, with hearts full of desire to serve, arms full of comforts and heads full of THE ONE GREAT SPIRIT—that of human help and kindness from man and God.

These seven morale-making agencies of service are delivering the wholesome home influence, with all its protection, love and care, to the men back of the lines in the day; and all through the night they carry in packs on their backs their bars of chocolate, cigarettes, rolls of cookies and cans of fruit, and sometimes letters from home, to the hand-to-mouth men in the gun nests in No Man's Land, the outposts of civilization. CERTAINLY THIS IS GOD-LIKE SERVICE.

Surely the love for your boy and the cause for which he is fighting will make it clear that you cannot afford not to contribute liberally to your local committee during this United War Work Campaign, which is a drive to raise \$170,500,000, of which Virginia's part is \$1,600,000, between November 11 and 18. This means about 12 1-2¢ a day for each American in service. This money will make it possible for these agencies of help to carry on their essential work.

If peace was declared to-day the need of these workers and this money would be greater than ever—it would take two years to bring the boys home, and demobilization brings added temptations and dangers—the boys must come home as clean and healthy as they went.

It Takes About \$50 a Year to Give One Boy the Service of These Seven War Working Organizations—HOW MANY BOYS WILL YOU TAKE CARE OF?

Why Compare Beef and Coal Profits?

Swift & Company has frequently stated that its profit on beef averages only one-fourth of a cent a pound, and hence has practically no effect on the price.

Comparison has been made by the Federal Trade Commission of this profit with the profit on coal, and it has pointed out that anthracite coal operators are content with a profit of 25 cents a ton, whereas the beef profit of one-fourth of a cent a pound means a profit of \$5.00 a ton.

The comparison does not point out that anthracite coal at the seaboard is worth at wholesale about \$7.00 a ton, whereas a ton of beef of fair quality is worth about \$400.00 wholesale.

To carry the comparison further, the 25 cent profit on coal is 3 1/2 per cent of the \$7.00 value.

The \$5.00 profit on beef is only 1 1/4 per cent of the \$400.00 value.

The profit has little effect on price in either case, but has less effect on the price of beef than on the price of coal.

Coal may be stored in the open air indefinitely; beef must be kept in expensive coolers because it is highly perishable and must be refrigerated.

Coal is handled by the carload or top; beef is delivered to retailers by the pound or hundred weight.

Methods of handling are vastly different. Coal is handled in open cars; beef must be shipped in refrigerator cars at an even temperature.

Fairness to the public, fairness to Swift & Company, fairness to the packing industry, demands that these indisputable facts be considered. It is impossible to disprove Swift & Company's statement, that its profits on beef are so small as to have practically no effect on prices.

VIRGINIA NEWS

"When the dead begin to exceed the speed limit I think that there is time to put a check on the living" declared Justice Crutchfield in Police Court of Richmond one morning this week when he fined Junius Williams, colored, \$50 for speeding an auto.

Announcement was made yesterday in Richmond that a satisfactory adjustment was made Wednesday evening between the American Railway Express, the United States railroad administration and H. A. Berry, general chairman of the express division of the Brotherhood of Railway Clerks, through Conciliator J. A. Moffitt, of the labor department of the railroad administration, whereupon Mr. Berry ordered back to work all express employees who went out on a strike.

Violet Wingfield, a young colored woman, aged twenty-three years, was shot at her home, near Jarratts, in Sussex county, Tuesday afternoon, by a negro named John Goodwyn. She was brought to the hospital in Petersburg, where she died early next morning. After shooting the girl, Goodwyn shot himself in the breast. It was at first thought he was in a dying condition, but he was brought to the hospital in Petersburg. Goodwyn is an enlisted man at Camp Lee and under orders to sail for overseas. He was granted a furlough to go to Sussex to see his people before sailing.

The Telephone On Your Desk

As an ornament in a glass case, the telephone on your desk would not amount to much. Connected with thousands of other telephones in the general system and used with intelligence your telephone is a very necessary and valuable thing.

The manner in which you use it determines its value to you. All of the operators at the switchboard, the costly and intricate machinery of the system, avail you nothing unless you use the telephone in such a way that real service is rendered.

Speak clearly, listen attentively and the System will do the rest.
